Pub Musician

Purchased From:

Catswhisker Pick Ups

Price:

GBP110.00 GBP

Features: ★★★★★

Bridge and Neck Pick ups came with wiring diagrams, and were ready for split coils.

Gold screws and custom black cases as requested.

Instrument:

Sg1000 1981

Sound Quality: ★★★★★

Superb PAF tone which has tamed the treble SG 1000 down exactly as I hoped it would- gives a kind of vintage Paul sound with the humbuckers. The coil taps also sound very good- quite Tele like.

Reliability/Durability: ★★★★★

I'm sure they will last a long time. They have metal cases!!

Ease of Use: ★★★★★

Ease of use- not sure how this applies when talking about pick ups.

Guess you wire them in, and if you don't know how go to a luthier.

Customer Support: ★★★★★

Excellent customer support. Pick ups were built exactly to my specification and I was given extra help with the wiring when I found Yamaha used their own color system. Superb.

Overall Rating: ★★★★★

Would definitely buy from again. Considering the quality and price I can see no reason to use anyone else.

In the past I have used Seymour Duncan, Gibson, Dimarzio, and Bareknuckle PUs which are all excellent but even so I stick with catswhiskers now.
